The 'resolution wheel' is the leveraged power, that enables awareness on another dimension, where we are fully accessing the power of interconnectedness and alliances with all life forms. Water is the spirit of "flow", and to befriend the Spirit of Water is to be in the flow-state. Water at the level of cause or flow (time), becomes Crystal at the level of form or structure (space) .

When our bodies are in pristine fluid, ever-renewing crystalline, coagulated White Light, we become the carrier of higher codes of living, and all that we manifest is in the untampered, pristine, holy 'structures' of fluid geometry. This means that all that we manifest in form is connected to its origin...to Source...it is imbued with the awareness from which it was expressed. And further it means that all our manifestations are eternally renewed and vitalized in Source.

Befriend the spirit of water as your ally, and you will manifest into eternity, a real environment that is generative and expressing at ever higher harmonic potentials.

The wheel under the carafe is the 'deduction'. It means:

Through reverently acknowledging the aliveness of all things, do you live in harmony with the universe.

To acknowledge the aliveness of all things is to connect with the divinity hidden in all life. What we perceive becomes animated by our recognition.

To engage with the aliveness of all things is to utilize life in form, or Infinite's Creation, as our canvas and materials with which to express life in ever more abundance and beauty. It is to enter into perpetual alchemy with the Source of all life.

And we optimize this capacity, through cultivating a Field of Hope in our inner space, that ripples out from our **Hearts** as an ever more powerful Song of Self.

The **Gut** center or *Haaraknit* assimilates our whole environment without resistance. And from the process of 'digesting' life as it is, and turning all back to pure creational power, distorted formations in the dream of separation are purified through out being that expresses ever new as a fluid crystalline field of White Light. The **Urusak Water Device** is the alchemical device that supports this.

As distortions get so purified in our bodies, there forms in **Head** 'receptacles' of the pristine blueprints for all that the body is assimilating, and these pull in or attract, Infinite Intent for its creations, as upgraded creational codes. This pours in as light codes and emanates from our being as Tonal Luminosity that has the power to upgrade all life and express it at higher harmonics.

We are becoming the code carriers of fluid, sacred geometry that is reconnected to Source, and so gets renewed and vitalized as life expressed in ever newness.

Note on the Addition of Herkimer Quartz Diamonds

Six small Herkimer diamond quartz can be put into the receiving carafe that holds the Holy Water. This keeps the water powerfully resonant with the six alchemical wheels on the plate that sits in the middle of the spiral.

Read the meaning of the wheels if you wish, as you prepare or drink the water. And contemplate them in meditation.

The optional 7th larger Herkimer serves to hold the 'resolution' or leveraged power of the six wheels. It does not go in the water carafe.

Herkimer quartz programmed together, become connected so that you can be with the purification power of the Urusak wherever you are, and connect more deeply with its purpose, to befriend the Spirit of Water and be assisted into the flow state that cleanses and purifies all life as you allow it move through your being. In this manner, you are living cooperating with the nature and gift of Water and Water element, which lives in you.

Water also holds the crystalline forms for Creation—this too is what you are assisted with by befriending its Spirit. Those powers of Holy Water embodied, will enhance the ability to assimilate life as it comes, purify it, and lift it into higher harmonic expression.

Place the 7th Herkimer gemstone in a pouch or in something that can hold it, and carry it with you as inspired.

You can also order a specially activated Herkimer diamond pendant for this.
