Previously, mankind had 13 minds, each of which had a different evolutionary function. As part of the evolutionary changes underway in the cosmos where complexity is being refined down into simplicity that contains the essence of all that was explored over the ages of cosmic cycles, the thirteen minds of man have now become five; with the One Eternal Mind containing all others.

From the Seer:

*“The minds of man (applicable also to the godbeings among men and the Earth itself) are metamorphosing into something quite different.*

*Because godbeings are the trailblazers of such big and essential changes on Earth, the Original Ones will already have noticed that their minds are not working the way they used to. (They feel spatially challenged, their memory is impaired, their deductive skills reduced and their mechanical abilities diminished — to mention a few.)”*

Here are the new minds:

1. **Magical Mind** - *located in the high heart area of the sternum. This will enable empathic communication with the magical (unseen) realms to take place.*
2. **Visionary Dreaming Mind of Self-Guidance** - *This mind is active during the dream time and is located in the back of the skull.*
3. **The Heart Mind** - *the mind that communicates non-cognitively through feelings and is located in the high solar plexus area in the middle of the chest where the two sides of the rib cage meet.*

Note: The original 13<sup>th</sup> mind accesses possibilities. It speaks to us by accessing potential and arousing our inspiration. Because inspiration is regarded as the 'Voice of the Infinite', the new function of the 13<sup>th</sup> mind in physicality (now the 4<sup>th</sup> new mind) (active during both the dreaming and awakened stages - being both receptive and proactive) is called:

4. **The Door to the Divine** - *It gives meaning to the importance of physical life, as it is the access point to Infinite Intent. It is experienced as a subtle movement in the cells.*
5. **The One, Eternal Mind** - *The incorruptible Eternal Mind of humanity is born of an eternal perspective. It is the result of the evolution of the mental plane of all humankind and the solution to achieving peace on Earth.*

Almine stated that although the new minds were formed on the summer solstice 2021, their maturation and mature functioning requires time to develop. This great change in life on Earth from these new minds, will rewrite the future into a more peaceful one of mutual cooperation. They will cause the division between waking and dreaming to be reduced and it could feel as though you're in a dream. *“Live love, praise, gratitude, trust, and hope. Rejoice that you are able to do your daily work with heartfelt gratitude. And trust that your being is your sustenance.”*

## The Power Stack

Place the Power Sigil (6) to establish communication with the Infinite at the bottom of the stack.

Then put the One Eternal Mind (5), and continue (4, 3 and 2) until you have the Magical Mind (1) at the top.

Then place the Power Sigil for the Quartz crystal (7), which will hold this intention and communicate Infinite Intent through the crystals in the brain in your sleep on top of the stack. Place a quartz cluster or point on top of the stack, with the point(s) directed at your head, preferably.

## Addition of Fragrance Alchemy

A special oil was created for the solstice event, **Eternal Mind**, and it can be applied before bed when you tune into the crystal and power stack you have set up, with intentions to promote peace on Earth through telepathic communication, true history restored, and living from profound surrender to Infinite Intent.

*“The alchemy in this phenomenal oil facilitates a shift in perspective that allows you to see your daily life from an empowered position of one living in Eternal time.”*

Placement: below the hairline, in the middle, and at the back of the neck.

Also apply **Crystal Waters** at the top of the head (Crown), so that you receive the full benefits of the activated quartz crystal.
