

## THE WATER ENLIVENING TOOLS

### The Water Power Source Wheel

This Power Source Wheel enlivens the water so that it remembers its function to vitalize and enhance life on the planet. Basically pushing water through straight pipes with right angles is unnatural movement that strips water of awareness particles. Without awareness particles, water is dead and cannot participate in new life. Without awareness of its function, water has been easily contaminated, whereas aware, sentient water would dissolve contaminants to some degree, as it would violate its function and role in the ecosystem.

Power Source Wheels are alchemical devices from the Infinite, that bring in great power from all dimensions of existence, providing a focal or confluence point through which is activated that which is its target – in this case, water. The Power Source Wheel is such specific alchemy that it must be used on its own (without any other wheels or sigils). Elite Shungite is the only thing that can complement the power of the Wheel, and it is recommended that a large chunk be placed on top of it if possible.

The Power Source Wheel device has Elite Shungite power in it, along with a 'lid' of *normal* shungite which has also been upgraded. But a piece of Elite Shungite on top of that is the optimal setup for greatest potency.

### Elite Shungite Complements the Alchemy

Our stock of Elite Shungite has been blessed by the Seer, and has been greatly upgraded and activated through two Power Sigils that were received by Almine on two separate occasions. With the first one, the Elite Shungite Guardian communicated that it seeded the rock beds eons ago, for the time when the oxygen would be purposely depleted on the planet. It identified itself as a 'warrior stone'. The Power Sigil assists it with the function of re-oxygenating air and water, and so it's recommended to have a piece on you at all time, and a big chunk in your home, sitting on the two Power Sigils.<sup>1</sup>

As we used it and called on its powers through an angelgod assigned to it, it became increasingly awake to its role at this time, and it appeared to the Seer on several occasions. At one point, the Seer saw another Power Sigil for it. This one activates the Elite Shungite to awaken to its function as King of the Mineral Kingdom, assigned to clear all the machinations of nefarious ones who seek to enslave mankind and destroy the planet. It is the stone of Truth, and as we use it and invoke the angelgods that work with it, we support graceful deconstructing of all that is unreal and not enlivened in Source.

With most alchemical setups, we can place the Elite Shungite Power Sigils under it, but not in this case, as the Power Source Wheel's alchemy is not to be disturbed in any way. Because of that, it is recommended that you recharge your elite shungite about once per month or every two months, placing the piece on the stacked power sigils for 24 hours before putting it back on the Water Power Wheel device.

You are to place the Water Power Wheel device on / below / near (but close) the incoming pipes to your home, and all the water will taken care of, even if it continues through the pipes of the house. The water now has the awareness of enlivening from natural movement, and remembers itself and its highest functions at this time.

<sup>1</sup> part of the Space Clearing Protocol setup ([www.academyofalchemy.com](http://www.academyofalchemy.com)).

As with all alchemical wheels, their delivered activations upgrade as life expresses at higher orders, and that is because they are timeless and multi-dimensional intelligence.

Note: If you have an apartment with several inputs, you can order a set of 2 or 3 smaller wheels.

As discussed above, on the Power Source Water device, you are to place a large chunk of elite shungite that has been on its Power Sigil stack for 24 hours prior. And you will reactivate the shungite piece periodically, so it is at highest vibe.

Now all the water in your home will be aware and enlivened!

## A Note on Bottled Water Dispensers

It is recommended that bottled water not be used unless it is vibrationally treated. The Seer has found several brands that contain nano particles in them. If you use a bottled water dispenser machine, you will need the Water Alchemy device on the bottle itself, and ideally, any pre-poured water must sit on the 'coaster' device for 24 hours. (tools described below). But with this new alchemy, you might consider getting a water purifier, placing the alchemical Power Wheel on your incoming water supply and using again.

## The Coaster Power Sigil

Part of supporting optimal potential in water activation, the Seer also received a Power Sigil that she called the 'coaster' Power Sigil. Its original intent was for it to be used to put Urusak-activated healing waters on, to keep them in highest vibration. Understand that there is so much EMF and radiation pollution in homes (unless you have the Space Clearing Protocol setup, or other tools to clear it), that everything of a higher vibration needs to be kept at optimum functioning through alchemical wheels and sigils.

But when we questioned Almine on it, it turns out that this too is a very effective alchemical tool, when used in conjunction with the Power Source Water Wheel device. So as long as your water is alive or 'conscious' to begin with, the Power Sigil is effective.

There are two ways to use it:

1. Simply place your water on it, and be in appreciation and gratitude for the life-giving gift of enlivened water.
2. Add specific healing intentions, communicate with the water as a sentient being, and flow Love, Praise, and Gratitude for its service to support life and bring vitality to the body.
  - For example, if you wish to plant seeds and have them receive the perfect codes to get a strong plant or crop, place the seeds near a bottle of water, put the water on the 'coaster' Power Sigil with an elite shungite piece on it, and communicate your intentions.
  - If you are putting a bottle of water in your child's lunch bag, communicate the healing or activating intentions to the Power Sigil to support your child.
  - If you have an illness, do it for that. If you have the insights around the illness, then embody the state of being that is the resolution, and from that state, communicate your intentions. That way you are part of the alchemical power, which can leverage outcomes.

You can have any intention, so long as it is not to fix flaws, but rather to participate with the highest perfection of Infinite Intent unfolding.

To enhance the alchemy:

- Call on the angelgod, **Aruveshva-haruset**. assigned to bring blessings through the power sigil.
- Be in the higher reality you envision through the water's power, so that your new song is offered into the 'alchemical cauldron'.
- Feel Love, Praise, and Gratitude, as this turns the water to 'holy water'.

The power of this can be explained by the following:

Shape holds memory. Being a crystalline substance, water too holds memory, and its crystals can be shaped by intent, Dr. Emoto demonstrated this in water molecule experiments.

*"The memory of Love, Praise, and Gratitude, infused into the water safeguards property and spaces from ill-intent". - Almine*

So as you direct the ascension attitudes through intention, the awareness particles of the water are infused with them, which causes the water to become 'holy', i.e. to draw in potentials of reality at higher orders.

This impacts on all the water in your home.
